Our Innovative Art...

Mfg. of All Types Precision Dies & Fixtures

i n f r a s t r u c t u r e

At **RDFPL** we have a fully equipped machining facility using CAM provided by the design department. Our engineers take into consideration all the processing requirements of the material specified to produce tooling of the very highest standard.

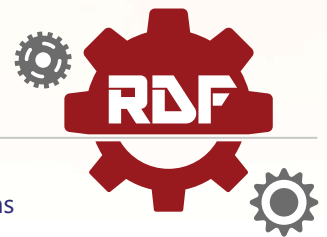

RDFPL believes in selection of right processes, right materials to achieve desired levels of quality. High quality steels, wherever necessary, imported steels are used, keeping in mind the end use.

Design & Development

- ▲ Development of components as per the customers sample, drawing & specifications
- ▲ We have in house capability to Design manufacturing process & tooling
- ▲ CAD & CAM tools are used for designing as well as Manufacturing
- ▲ In consultation with the customer, we can redesign the process to improve the quality of product at a reasonable price

Manufacturing & Quality

- ▲ Strict Management & Manufacturing up gradation
- ▲ Our highly skilled labour operates from a modern, well equipped machine shop
- ▲ Process control from Design development to Dies & Fixture manufacturing
- ▲ We continuously strive to improve the quality of product
- ▲ Tracking, traceability & accountability

mission & vision

We, at **RAJKOT DIES AND FIXTURES PVT. LTD.** believe that the establishment of an effective quality and environmental management system will help our company to achieve its vision of becoming a highly respected manufacturer company.....

The company is strongly determined to lead in this industry by providing satisfaction to our customers and complying with all applicable environmental laws and other requirements that we subscribe to. We will achieve this by:

Addressing the needs and expectations of our customers in a timely manner.

Continually improving our processes and manpower through innovation and training.

Continually raising quality and environmental awareness within the Company and our customers & suppliers as well.....

Developing sound practices for effective waste management and proper consumption of electricity.....

**DELIVERING INNOVATIVE,
COST EFFECTIVE
AND TIMELY SOLUTIONS**

It is imperative that all personnel understand this policy and that all relevant objectives / targets formulated are for the continual improvement of the quality and environmental management system.....

about us

We have been longest time in this field, **RAJKOT DIES AND FIXTURES PVT. LTD.** have successfully set ourselves apart following a clear strategy and displaying unequalled performance in design and development of a wide range of Dies, Jigs, Fixtures, Moulds and precision manufacturers.....

At **RAJKOT DIES AND FIXTURES PVT. LTD.**, we are a professionally managed group of experts driven by innovation in technology, encouraging growth and being agile to new opportunities. We believe that, to stand out from the competition, we require to continually improving our products and services. Quality, for us, is something which changes with the changing requirements and expectations of our customers. We believe in timely delivery with optimum price and best quality. Therefore, we always emphasize upon keeping our technologies upgraded, manufacture the best products in the industry, and thus achieve the highest level of quality standards. Customers rely on us because of our quality driven attitudes and our ability to offer advanced and feature rich products at affordable price.

You Dream It...
We Make It...!!!

We Specialize in Manufacturing of

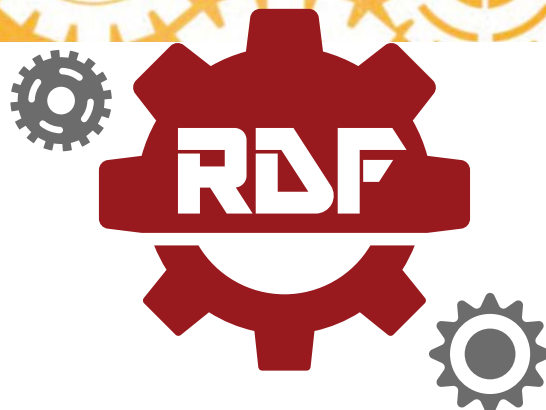

- **Press Tool Die**
- **Plastics Mould**
- **Jigs & Fixtures**
- **Special Tools & Gauges**
- **General Engineering Components**

*“ We leave no stone unturned to ensure a long and healthy customer relationship.
Our role in shaping prosperous India, a better India. “*

team

RAJKOT DIES AND FIXTURES PVT. LTD.,
enjoys an open work culture. We believe in motivating our workforce with a transparent system based on integrity, inculcating trust and involving consensus in decision making through a shared vision and team spirit. Our professional leadership understands the problems of the employees and creates shared commitment.

- Innovations that work.....
- Technology for the future...today.
- Our experienced personnel, along with our commitment to Service and quality, give us the edge on our competition and an advantage that will ensure your success!
- Quality is not a choice – It is a commitment to customer satisfaction.....
- From Impellers to Steam Turbine Blades, From Moulds to Replicast Dies, We have the experience!.....

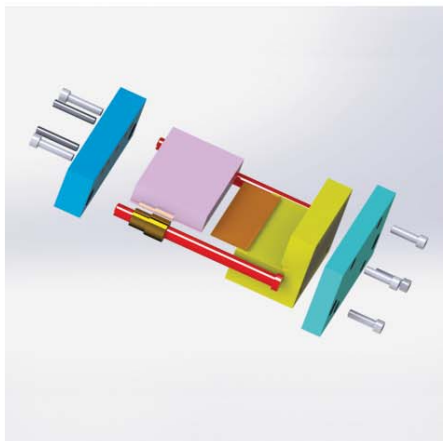

p r o d u c t s

Products that function better, look stylish and are less expensive to manufacture. We have combined our extensive experience in engineering.

Nature of products

- Precision Dies & Fixtures Requiring Operation on your views our work.
- A Die is a form used to shape metal in forging and stamping operations. Dies also include metal molds used in making plastics and composite materials.
- A Fixture is a device for locating, holding and supporting a work piece during a manufacturing operation. It is a production tool that locates, holds, and supports the work securely so the required machining operations can be performed.

Field Of Products

Automobile
Aeronautical
Railway
Marine
Earthmoving Equipment
Textile
Machine Tool

machining capability

CNC EDM WIRECUT

No. Of Machine	Make & Model	X	Y	Z	Max. Weight Of job
1	Joemars AWT - 655S	650 mm	400 mm	350 mm	700 kg
1	Joemars AWT - 455S	450 mm	300 mm	250 mm	500 kg
1	Electronica Maxicut	400 mm	300 mm	200 mm	450 kg
1	Electronica Sprintcut	400 mm	300 mm	200 mm	450 kg

CNC MILLING

1	Huron Kmill10	1000 mm	700 mm	600 mm	1500 kg
---	---------------	---------	--------	--------	---------

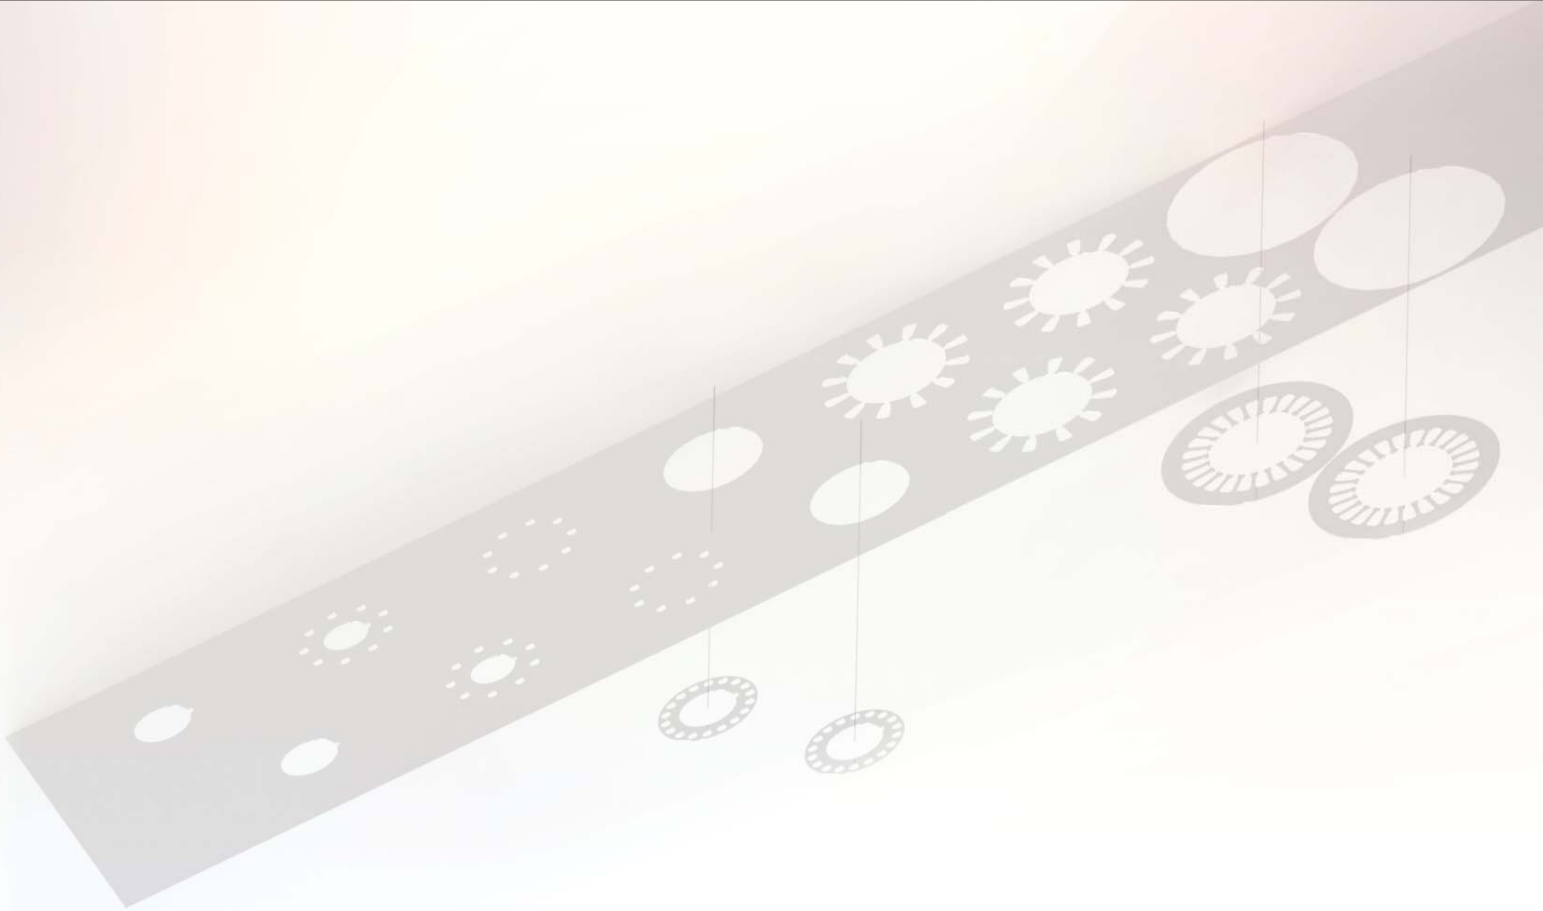

CONVENTIONAL & GENERAL MACHINERY

No. Of	Machine
1	Surface Grinder
1	Internal & External Cylinder Grinder
1	Tool & Cutter Grinder
2	Turning Lathe
1	Drill
1	Shaping
1	Power Press
1	Power Hacksaw
1	Bench Grinder
3	Hand Pneumatic grinder for debarring

QUALITY EQUIPMENTS

Instrument	Capacity	Make
Surface Plate	1000 x 600 mm	Luthra
Height Gauge	Up to 600 mm	Mitutoyo
Bore Gauge	6 to 150 mm	Mitutoyo
Digital Vernier	Up to 600 mm	Mitutoyo
Micro Meter	Up to 250 mm	Mitutoyo
Slip Gauge	115 pic set	Mitutoyo
Roughness Tester	Ra, Rz, Rq,	Mitutoyo
Surface Roughness Comparator	Ra, Rz	Mitutoyo
